

Workplace giving

You can help us make our next discovery

The Menzies Institute for Medical Research (Menzies) is an Institute of the University of Tasmania.

Our 270 strong research team exists to perform internationally significant medical research leading to healthier, longer and better lives for Tasmanians.

Research at Menzies is focused in five 'key themes'

- Public Health and Primary Care
- Neurodegenerative Diseases / Brain Injury
- Cardio-Metabolic Health and Diseases
- Musculoskeletal Health and Diseases
- Cancer, Genetics and Immunology

The diseases that our researchers are working on include: arthritis, blood pressure, brain injury, cancer, cardiovascular disease, dementia (including Alzheimer's disease), diabetes, glaucoma, mental health issues, motor neurone disease, multiple sclerosis, osteoporosis and Parkinson's disease.

Our ultimate goal is to cure or prevent disease and to save lives.

Medical research is a long process. It takes time and commitment, but also significant resources. Without your support in donations some research simply would not happen. When you donate to Menzies you are able to specify the particular research area to which you would like to contribute, or you can specify that you would like your donation to go to the area of greatest need.

We are proud to be able to say that every cent donated to Menzies is spent on medical research. All donations over \$2 are tax-deductible.

What is Workplace Giving?

Workplace Giving enables you to make regular donations from your pre-tax pay, resulting in an automatic tax reduction.

Your HR Department will deduct your donation amount from your salary before deducting your tax, so the benefit to you is immediate. You can make your donation in an efficient and tax-effective manner, eliminating the need to collect receipts or wait until the end of the year to claim a tax refund.

For example*:

If you donate	You will contribute	We will receive	Over 12 months	You only had to give
\$10 a fortnight	\$6.85	\$10.00	\$260.00	\$178.10
\$20 a fortnight	\$13.70	\$20.00	\$520.00	\$356.20
\$50 a fortnight	\$34.25	\$50.00	\$1,300.00	\$890.50

* Estimates are based on a gross annual salary of \$50,000 as at 2015 tax rates. Menzies Institute for Medical Research does not claim to provide financial advice for workplace giving donations and these figures are indicative only.

Will you help us make our next discovery?

Please complete the questionnaire overleaf and return it to your HR Department.

Thank you for your interest in giving to the life changing work of the Menzies Institute for Medical Research.

Once you have completed this form, hand it to the appropriate person in your workplace. This will be someone in your payroll or human resources departments.

If your employer does not currently offer workplace giving/payroll giving, please complete all the personal company and donation details requested below and return this form to Menzies Institute for Medical Research Advancement Team:

**Private Bag 23, Hobart 7001
or email to: Menzies.Advancement@utas.edu.au**

Personal details:

Mr Mrs Miss Ms Other _____

First name: _____ Last name: _____

Postal address: _____

Phone/mobile: _____ Email: _____

Company details:

Company name: _____ Team: _____
